

SENSORS, SWITCHES, SOLENOIDS, VALVES

PREMIUM QUALITY REPLACEMENT ENGINE PARTS

Suitable for: Komatsu®, Caterpillar®, Cummins®, Perkins® & John Deere® applications.

KMP has in stock a comprehensive range of sensors & electrical parts suitable for Komatsu, Caterpillar, Cummins and Perkins machines & engines.

- SENSORS
- SWITCHES & RELAYS
- SOLENOIDS
- VALVE GROUPS

SENSORS pick up and relay critical information during engine operations. Common types of sensors include:

- **Temperature** (water, oil),
- **Pressure** (intake, exhaust, oil, fuel)
- **Speed and Position**

SWITCHES & RELAYS primarily convert small electrical inputs into larger currents. There are also various types of switches like pressure, oil level, and magnetic switches.

SOLENOIDS & VALVES are electrically controlled components which are used to shut off or release fluids within the system

As these components are critical for the machine's proper functioning, we highly recommend to select only reliable sources with proven quality standards.

All KMP Brand Sensors, Switches, Solenoids & Valves are carefully engineered, assembled, and undergo 100% testing & inspection prior to sale. We bring you the best quality at competitive prices.
